

November 21, 1990. The results were submitted on December 17, 1990. The demonstrations of mechanical integrity were accepted and Cabot's exemption was extended to include operation of Well No. 1 on February 4, 1991. On August 18, 1994, Cabot requested addition of Waste Code F039, multi-source leachate recovered as purge water from on-site monitoring wells, to the list of exempted wastes. This petition was reviewed and determined to be nonsubstantive, and the changed requested was acknowledged on November 4, 1994.

Because of problems of capacity to inject the entire waste stream through Well No. 1, at times when Well No. 2 is unavailable and concerns about the maintenance of mechanical integrity of Well No. 1, Cabot petitioned for reissuance of the exemption to include newly drilled Well No. 3 and to add information which confirms the conservative nature of the parameter values used to simulate waste migration through the 10,000 year post closure period.

The USEPA reviewed information concerning the mechanical integrity of each well, evaluated the conclusions and data on which they are based, and has determined that conclusions are based on valid interpretations of measured data and show that the model used to simulate waste migration is conservative and meets all requirements specified in 40 CFR Part 148.

A Federal Register notice describing the basis of the decision was published on November 28, 1995, at 60 FR 58623 et seq. A public notice of the proposed decision was published in local papers on December 5, 1995, pursuant to 40 CFR 124.10. A public hearing was tentatively scheduled, but not held due to lack of public interest in the decision. The public comment period expired on January 19, 1996. Two comment letters were received, and after considering all comments, the USEPA has determined that its reasons for granting the exemption as set forth in the proposed decision remain valid; accordingly, the exemption is reissued with specific conditions listed in this notice. A responsiveness summary has been prepared for distribution to all commentors.

CONDITIONS: For this exemption to be effective, Cabot must meet the following conditions:

- (1) The monthly average injection rate must not exceed 400 gallons per minute;
- (2) The concentrations of the constituents included in the injected leachate will not exceed the amounts listed as proposed maximum allowable

concentrations in Table 8-6 in the 1988 petition document;

(3) Direct injection shall occur only into the Franconia, Potosi, and Eminence Dolomites and the Gunter Sandstone;

(4) The injection zone shall consist of the Franconia, Potosi, Eminence, and Oneota Dolomites and the Gunter Sandstone, found between the 5,400 and 4,442 foot depths in Cabot's Well No. 2; and

(5) Cabot must be in full compliance with all conditions of its permits and other conditions relating to the exemption found in 40 CFR Parts 148.23 and 148.24.

DATE: This action is effective as of January 22, 1996.

FOR FURTHER INFORMATION CONTACT: Harlan Gerrish, Lead Petition Reviewer, USEPA, Region 5, telephone (312) 886-2939. Copies of the petition and all pertinent information relating thereto are on file and are part of the Administrative Record. It is recommended that you contact the lead reviewer prior to reviewing the Administrative Record.

Rebecca L Harvey,
Acting Director, Water Division.

Notice of National Environmental Education Advisory Council Monthly Conference Calls

Notice is hereby given that the National Environmental Education Advisory Council will hold regularly scheduled monthly conference calls on the second Thursday of each month from 3:00 to 4:00pm eastern time. The Council was established under section 9 of the National Environmental Education Act (the Act) to provide advice and recommendations to EPA on EPA's implementation of the Act. The Council includes representatives from schools, universities, states, nonprofit organizations, and the private sector.

Conference calls in which the Council will provide EPA with advice or recommendations will be accessible to the public as provided for under section 10(a)(1) of the Federal Advisory Committee Act (FACA). However, conference calls in which the Council will solely gather information or analyze issues and facts that will be deliberated at a later date by the Council during an open public forum will not be accessible to the public (per exemption under section 101-6.1004(k) of the General

Service Administration's final rule on FACA committee management).

To obtain information on the Council or their conference calls, please contact Kathleen MacKinnon, Environmental Education Division (1707), Office of Communications, Education, and Public Affairs, U.S. EPA, 401 M Street, SW., Washington, DC 20460, 202-260-4951.

Dated: December 7, 1995.

Denise Graveline,
Deputy Associate Administrator, Office of Communications, Education, and Public Affairs.

Tonolli Corporation de Minimis Settlements; Proposed Administrative Settlements Under the Comprehensive Environmental Response, Compensation and Liability Act

AGENCY: United States Environmental Protection Agency.

ACTION: Request for public comment.

SUMMARY: The United States Environmental Protection Agency is proposing to enter into an amendment to the Tonolli Corporation first *de minimis* settlement and an amendment to the second *de minimis* settlement pursuant to Section 122(g)(4) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, (CERCLA), 42 U.S.C. 9622(g)(4). The proposed amendment to the first *de minimis* settlement is intended to resolve the liabilities under CERCLA of 9 *de minimis* parties for response costs incurred by the United States Environmental Protection Agency at the Tonolli Corporation Site, Nesquehoning, Pennsylvania. The proposed amendment to the second *de minimis* is intended to resolve the liability of 1 party for response costs incurred by the United States Environmental Protection Agency at the Tonolli Corporation Site.

DATES: Comments must be provided on or before March 11, 1996.

ADDRESSES: Comments should be addressed to the Docket Clerk, United States Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania, 19107, and should refer to: In Re: Tonolli Corporation Site, Nesquehoning, Pennsylvania U.S. EPA Docket No. III-92-35-DC and EPA Docket No. III-93-03-DC.
